LEARN IT. THEN MAKE IT YOUR OWN.

Join two of New England's premier barber educators for a fresh approach to men's cutting and grooming. Witness effective consultations, precision cutting, modern styling trends, and the tools that bring each look to life.

Go Hands-On: Recreate two cuts—one longer and one shorter—while building confidence in fading, clipper cutting, shear-over-comb technique, and tailoring the finish to your guest's preferences.

Workshop Tools Needed: Clippers, trimmers, shears, cutting comb, clips, water bottle and towel. Working products supplied to complete your looks.
