

KEVIN.MURPHY VIRTUAL.STAGE

GLOSS

KEVIN.MURPHY+GLOSS is uniquely designed as a colour and treatment in one. Learn how to master the options of our luminous, liquid demi-permanent colour. Explore how to take your colour beyond shine to reconstruct and deeply moisturise the hair for incredible strength that increases every time you colour. Explore the exciting selection of shade options and master a variety of application techniques that allow for a completely customisable hair experience.

RECOMMENDED FOR

All colourists that are using GLOSS to help understand usage and incorporate the line into colour services or as a stand-alone service to repair, thicken and strengthen.

MEET YOUR EDUCATOR:

Kindsay Elgin is a colour educator known for creating effortless, modern colour while building meaningful connections with clients behind the chair. Her journey into hair began unexpectedly while she was studying chemical engineering. Realizing she wanted a career that allowed her to make a more personal impact with people, she shifted her path toward cosmetology—and quickly found her passion in the beauty industry. Kindsay enjoys creating colour that feels natural, polished, and tailored to each client.

One of her go-to KEVIN.MURPHY products is DOO.OVER, which she loves for adding soft texture and volume while maintaining a modern, effortless finish. If given the opportunity, Kindsay would love to style Jennifer Aniston, embracing her timeless aesthetic and simply enjoying the chance to collaborate and create alongside such an iconic figure. Kindsay draws inspiration from industry leader Carolyn Aronson, whose influence and entrepreneurial spirit continue to motivate her within the beauty industry. After a long day, Kindsay enjoys slowing down with a little research or studying before unwinding with her husband and their dog—usually finishing the evening with a good movie or favorite show together.
